

Welcome To DYO Clipart!

In this trial pack you will find the following:

- DYO Clipart templates for you to practice
- Skintone swatches for Procreate
- Skintone swatch JPG which you can use in other apps (import it into your project as an image layer)

DYO Clipart Templates

The three templates in this pack are:

- DYO Clipart 1 - this is the base character which is used in the tutorials below
- DYO Clipart 2 - this is a character waving hello and will allow you to practice the techniques from the tutorials
- DYO Clipart 3 - this is a an older character giving a thumbs up

If you want to see examples that I have made with these [templates for inspiration see HERE](#).

Get Started Tutorials

We have a series of tutorials to help you create your first clipart characters. These will walk you through everything from importing the templates to exporting the finished versions.

You will find them starting here:

• [Get Started Tutorial 1](#)

More Tutorials

I have lots more tutorials planned, looking at creating a wide range of clipart. If you have a request for a tutorial do let me know!

I have used Procreate in the tutorials, however most drawing apps do similar things, it's just the tools are in different places. If you would like to see tutorials in another app send you your request so I can add it to the list!

Use this form to send your suggestions - [SUGGESTION FORM](#)

Questions, Suggestions, Comments :)

You are welcome to send me an email at kate@dyoclipart.com

I'd love to see what you create - use the hashtag #dyoclipart when you post to social media :)
